Graphic and Web designer focused on creativity and usability by decisive problem-solving and utilization of time effective practices, while being ahead of the curve in digital trends and technology.

Information Technology - Graphic and Web Design

2012 to 2016

Print Direction, Norcross, Georgia

Built and maintained web presence for Print Direction. Created websites, online storefronts, and printed products for customers.

- Created a flexible menu template for the restaurant Hooters using JavaScript, InDesign, and Excel.
- Created and managed storefronts for Chick fil A, Southeastern Grocers, RaceTrac, Moe's, AT&T, etc.

Freelance

2009 to Present

Atlanta, Georgia

Produced projects from various visual mediums including web, print, branding, video, and apparel. Worked closely with clients to fulfill their creative vision.

- Created a multitude of websites; company sites, portfolios, e-commerce sites, and web applications.
- Completed numerous printed pieces including posters, stationery, t-shirts, wall covers, car decals, etc.

EDUCATION

Majoring in Internet Specialist - Web Design

2018

Gwinnett Technical College, Lawrenceville, Georgia
